

Rapport du projet

Réalisé par :

BAHI Salma

BERRHAZI Mohammed

Encadré par :

Pr. MAHMOUDI

Remerciements

On tient tout d'abord à remercier notre encadrant M. Le professeur MAHMOUDI pour avoir bien voulu encadrer ce travail ainsi que pour sa riche contribution et ses précieux conseils.

Introduction

La réalisation d'un projet permet de bien maîtriser les techniques étudiées, apprendre des nouvelles techniques, se situer dans un cadre professionnel de travail et le point le plus important c'est d'apprendre les méthodes pour gérer un projet en équipe. Notre projet est basé sur une problématique bien connue qui est :

LA GESTION DES ETUDIANTS DE L'ECOLE NORMALE SUPERIEURE DE RABAT

Problématique

La gestion des données est un critère essentiel pour toute entreprise ou établissement, il se peut que ça soit une gestion de stock, gestion des ressources humaines... Pour ce projet on a opté pour le cas de l'Ecole Normale Supérieure de Rabat, qui aura besoin de gérer l'ensemble de ces étudiants et qu'ils peuvent visualiser leurs informations personnelles (Nom, Prénom, Filière, et son propre portfolio), à travers une interface simple et pratique. Cette gestion sera bien sûr traitée à travers une base de données stockée sur le local ou sur un serveur privé de l'établissement.

Vous verrez dans ce projet l'importance du langage PHP pour mettre un site web dynamique. Le site est basé notamment sur 3 langages principaux sont le PHP, CSS/HTML et JS avec des ajouts de framework (Bootstrap) pour donner une beauté au site web et enrichir la partie design. Donc vous allez voir dans ce rapport le

déroulement de la création de ce projet selon les étapes et les outils que nous avons utilisé.

Étude de marché

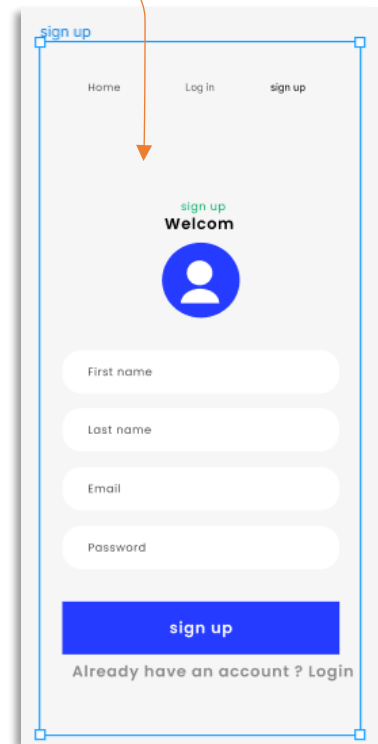

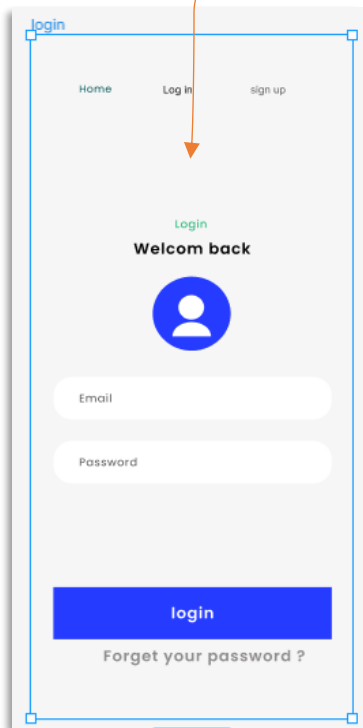

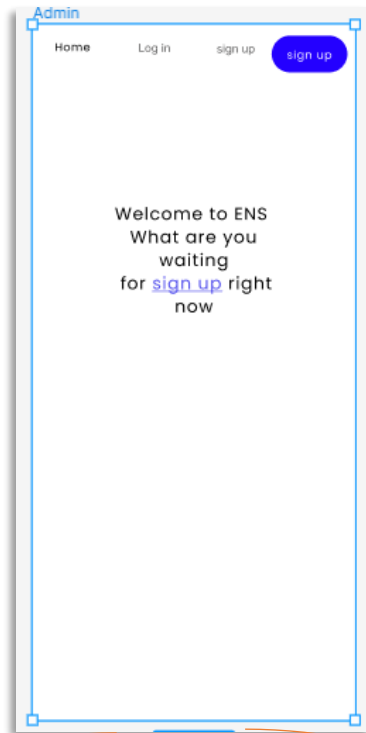

Étude de marché est une activité d'exploitation marketing destinée à analyser, comprendre et mesurer le fonctionnement réel de notre projet.

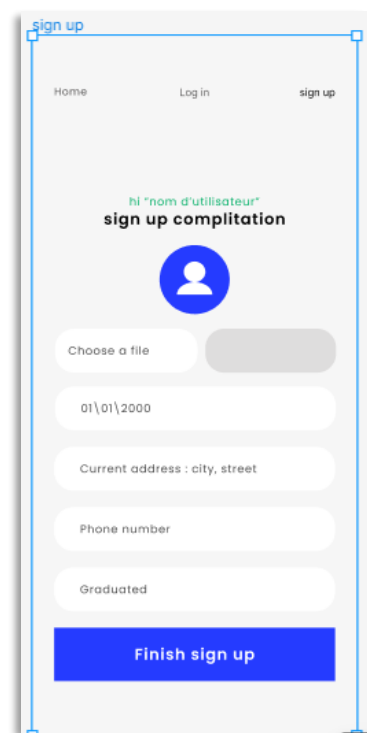

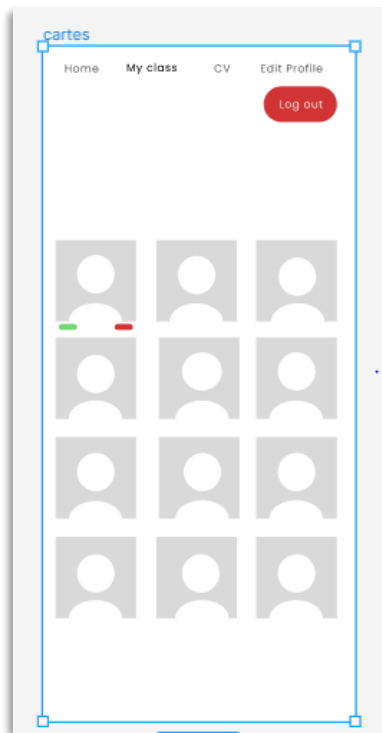

Après avoir des données sur le marché en général, et l'analyse des dernières tendances, voici quelques applications qui adoptent les mêmes principes que notre site en termes de connexion, inscription et le fonctionnement de la base de données.

- Les sites des grands établissements scolaires.
- Le site de CIMR (Caisse Interprofessionnelle Marocaine de Retraites).
- Les sites de vente en ligne (SHEIN, TRENDYOL, GUESS...).

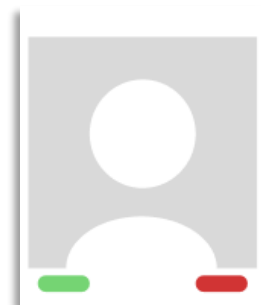

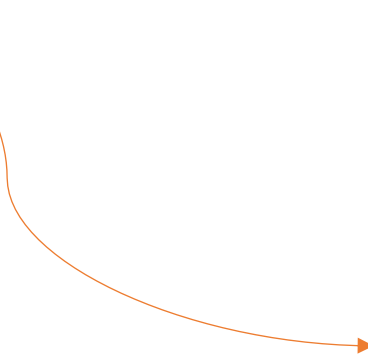

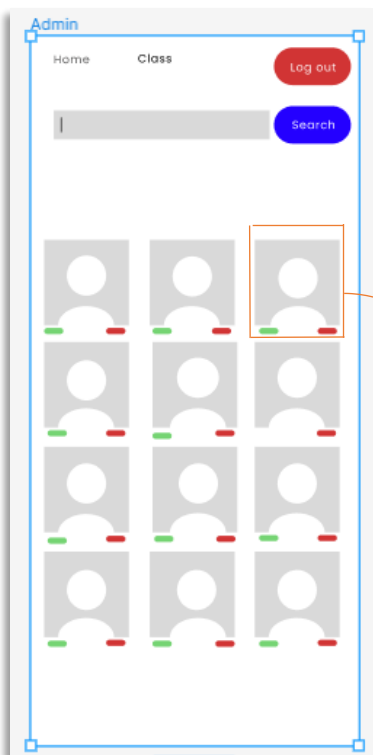

Partie de design

Pour la partie design nous avons utilisé l'outil Figma pour mettre nos idées.

Si vous êtes admines :

Un admines peut *ajouter, modifier*
ou *supprimer* un utilisateur.

Partie de developpement

Nous avons utilisé PHP comme langage de programmation constituant notre projet.

Connect.php :

```
1 <?php
2 $dbServer = 'localhost';
3 $dbUser = 'root';
4 $dbPassword = '';
5 $dbName = 'dbm';
6 $connect = mysqli_connect($dbServer, $dbUser, $dbPassword, $dbName);
7 if (!$connect) {
8     die('Connection failed: ' . mysqli_connect_error());
9 }
10
```

validerlogin.php :

```
1 <?php
2 session_start();
3 $mail = $_POST['mail'];
4 $passwd = $_POST['passwd'];
5 require('connect.php');
6 $sql = "SELECT * FROM students WHERE mail='$mail' AND passwd='$passwd'";
7 $exe = mysqli_query($connect, $sql);
8 $row = array();
9 $row = mysqli_fetch_assoc($exe);
10 if (isset($row)) {
11     $_SESSION['id'] = $row['idStd'];
12     $_SESSION['promo'] = $row['promotion'];
13     header("location:class.php");
14     die;
15 } else {
16     $sql = "SELECT idAdmin FROM admins WHERE passwd='$passwd' AND mail='$mail' ";
17     $exe = mysqli_query($connect, $sql);
18     $row = mysqli_fetch_assoc($exe);
19     if (isset($row)) {
20         $_SESSION['prev'] = 1;
21         $_SESSION['mail'] = $row['mail'];
22         header("location:class.php");
23         die;
24     } else {
25         require("login.html");
26     }
27 }
28
29 <html>
30 <head>
31 <style>
32     .form-control {
33         border: 1px #FF0010 solid !important;
34     }
35     .form-control:focus {
36         box-shadow: 0 0 0.25rem rgb(244 20 0 / 37%) !important;
37     }
38     .error-msg {
39         display: block;
40     }
41
```

Conclusion

Le projet de site de gestion des étudiants de l'Ecole Normale Supérieure, avait pour but de créer un site qui permet de gérer l'ensemble des étudiants, et leurs propres portfolios. Ce projet nous a été bénéfique d'un point de vue conception et design, puisque c'est notre tout premier site avec interface graphique, développant ainsi notre côté artistique et créatif.
